

VOS VIRTUAL ON SITE

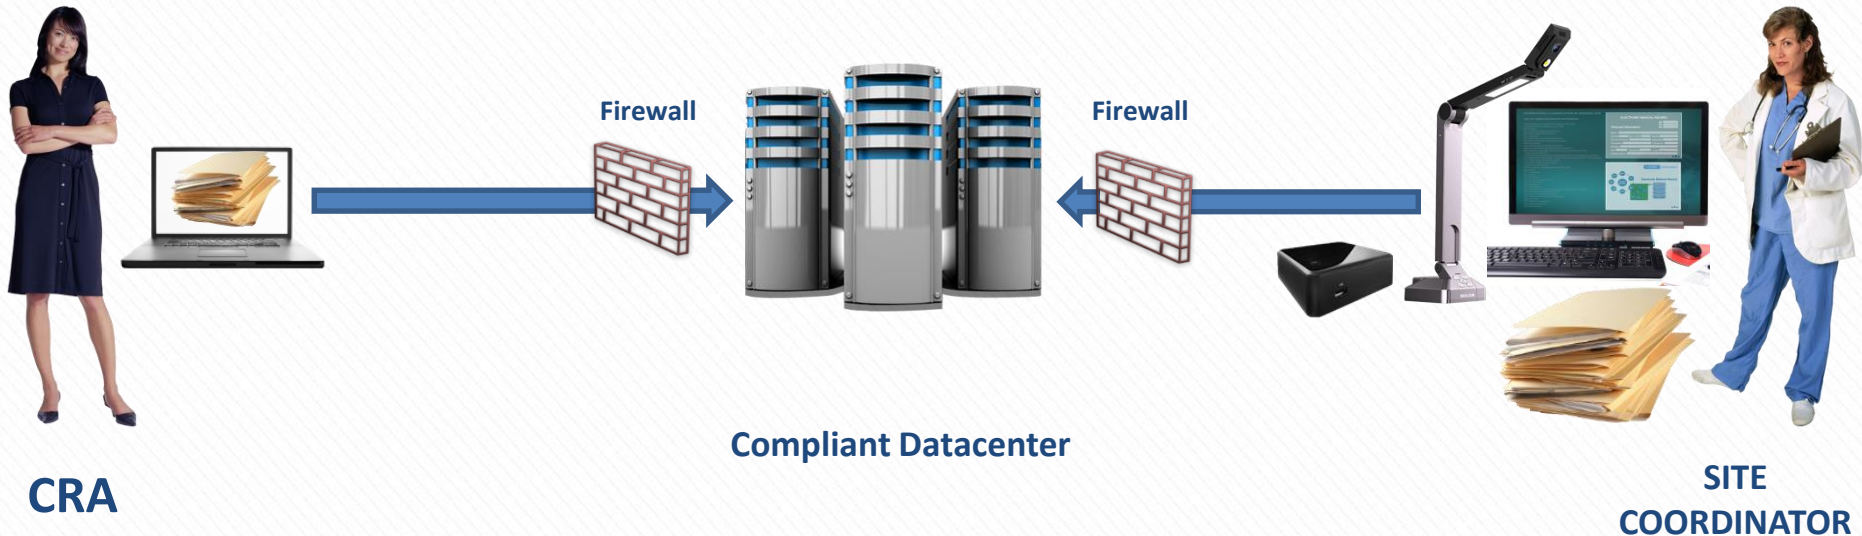

*Innovation and Efficiency in
Clinical Trial Monitoring*

VOS Solution

App

Platform

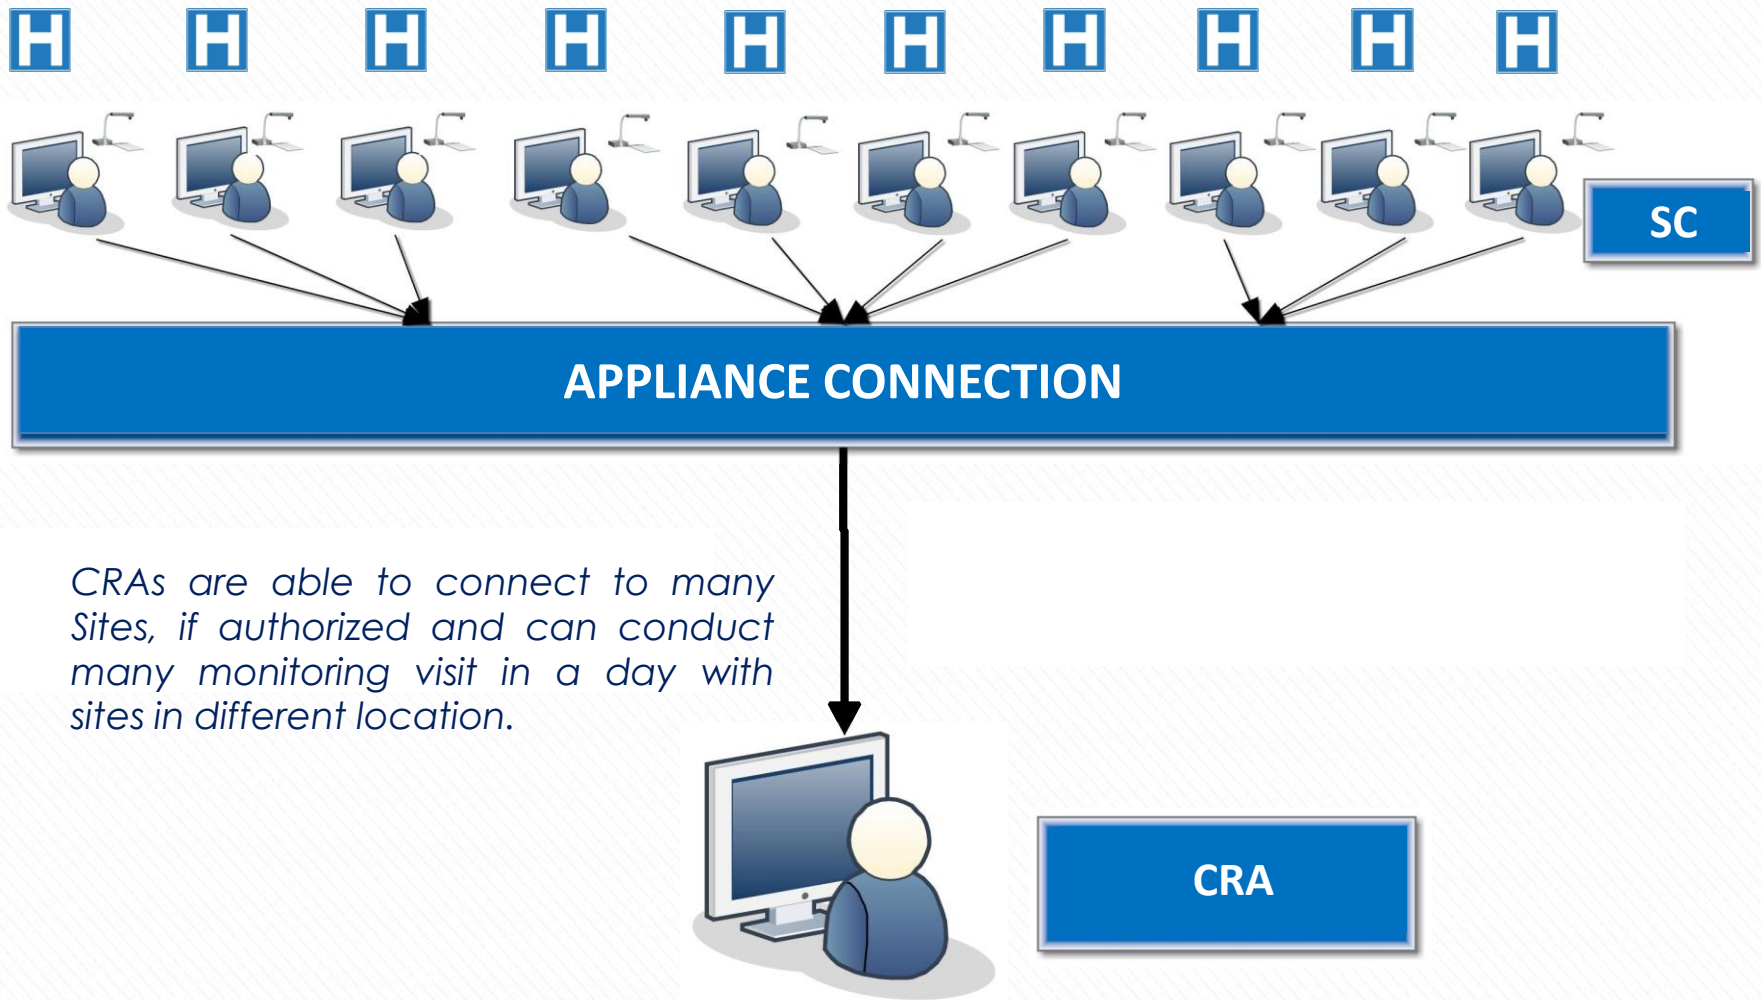

Streamer

VOS platform is composed, at one side, by a document camera and an appliance that are provided at the site location. They are connected through an internet SSL secure connection to the VOS center installed in our GCP datacenter and the CRAs from office.

CRAs are able to connect to the VOS center using their computer or tablet via an internet connection secured by SSL.

VIRTUAL ON SITE MONITORING

SYSTEM DESCRIPTION

Site side components :

- Document Camera
- VOS Promeditec Appliance

MAIN ADVANTAGES OF VOS

- Control clinical trial data from a **remote** location
- **Reduce time and costs** related to monitoring
- Define a more **effective** Monitoring Plan
- Improve the CRA **quality of life**: decrease the turnover
improve the **quality of monitoring activity**
- Optimize monitoring for the **Risk Based Monitoring** approach

TRADITIONAL MONITORING VS VOS

- 1) 4 hours of monitoring and 2 hours of travel. (1 Day activities)
- 2) 8 hours of monitoring and 2 days of travel. (3 Days activities)

TYPE OF COST	TRADITIONAL MONITORING (1)	VOS (1)	TRADITIONAL MONITORING (2)	VOS (2)
CRA Hours Fee	800 €	400 €	2.000 €	800 €
Travel and Logistics Costs	300 €	0 €	1.100 €	0 €
VOS per month*	0 €	250 €	0 €	250 €
TOTAL VISIT COSTS	1.100 €	650 €	3.100 €	1.050 €
COST REDUCTION		40 %		66 %

*2 visit per month. VOS costs 500 € per site per month
